

## Quick Guide

WebSquare 5

# GridView

getDataType()  
setDataType()

## Goal / 목표

Get or set the **dataType** of a  
GridView column.

/

GridView 컬럼의 **dataType** 속성을  
확인하거나 변경.

## Example / 사용 예

```
gridView.getDataType ( "col1" );  
gridView1.setDataType ( "col1", "float" );
```
