

## Quick Guide

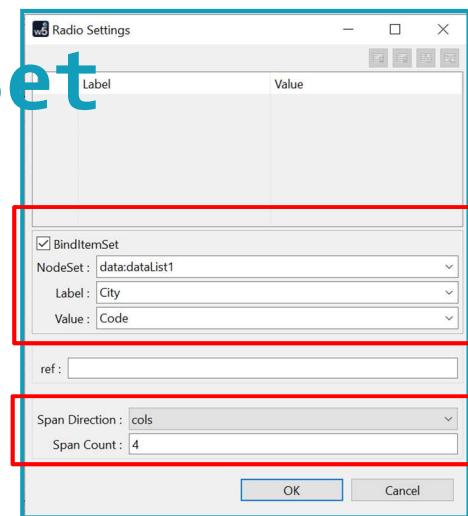

# WebSquare 5 Radio

Binding with a DataList (BindItemSet)  
DataList와 바인딩 (BindItemSet)

## Goal / 목표

Bind with a DataList  
to set the selection items.  
/  
DataList와 바인딩하여  
선택 항목을 설정.

## BindItemSet

The screenshot shows the 'Radio Settings' dialog box. The 'BindItemSet' checkbox is checked. Below it, the 'NodeSet' is set to 'data:dataList1'. The 'Label' is set to 'City' and the 'Value' is set to 'Code'. The 'ref' field is empty. The 'Span Direction' is set to 'cols' and the 'Span Count' is set to '4'. The 'OK' and 'Cancel' buttons are at the bottom.
