

## Quick Guide

WebSquare 5

## GridView

advancedExcelUpload()  
options.wframe

## Goal / 목표

Create the Excel upload window  
with WFrame and  
set the window properties.

/  
업로드 창을 WFrame으로  
생성하고 업로드 창의 속성을 지정.

## Example / 사용 예

```
var options = {  
  wframe: true,  
  name: "Upload Your Excel",  
  features: "top=50,left=300,width=500,height=200",  
  className: "border",  
  resizable: true,  
  windowDragMove: false  
};  
gridView1.advancedExcelUpload(options);
```
