

Quick Guide

WebSquare 5

WebSquare.util

multipleExcelDownload()

Goal / 목표

Download multiple GridViews
into a single Excel file.

/

여러 개의 GridView를
엑셀 파일로 다운로드.

```
var options = {  
  common: {  
    fileName : "GridViews_down.xlsx",  
    multipleSheet: "true",  
    showProcess : false  
  },  
  excelInfo: [  
    {  
      gridId : "gridView1",  
      sheetName : "No. 1",  
      removeColumns : "",  
      wframeId : "wframe1" → in WFrame  
    } .....  
  ]  
};  
WebSquare.util.multipleExcelDownload( options );
```
