Quick Guide

WebSquare 5
GridView

groupby()
**options.showOnlyLastDepth**

Goal / 목표

Shows only the last depth upon GridView data grouped by groupby().
/
그룹핑을 수행할 경우,
마지막 단계만 표시.

```
var options = {
    sortIndex: [0, 1],
    closeGroup: true,
    showOnlyLastDepth: true,
    groupbyHeader: [{
        inputType: "expression",
        expression: 'toggle() + depthStr() + "    [ " + count() + " Cases ]  "',
        align: "left",
        colSpan: "4"
    }],
    groupbyFooter: {
        depth_0: [{
            colSpan: "3",
            value: "Grand Total",
            align: "right"
        }, {
            inputType: "expression",
            expression: 'SUM("col4")'
        }],
        depth_1: [{
            colSpan: "3",
            value: "Sub Total",
            align: "right"
        }, {
            inputType: "expression", expression: 'SUM("col4")'
        }]}
};
gridView1.groupby(options);
```
